**Subject:** Microsoft make the world different.

That different is that, the rich become richer, the poor become poorer.  
The different causes the driving force, driving people mad.  
I think this is a major reason of what happened on Sep 11.  
You, as a big brother on earth, should be neutralizing the world.  
Terrorist are similar to African bee. A bee hit you they died and you hurt.  
I think that the smart guy is a bee keeper. Don't you think so?  
Any way, I hope that American soldier can find all the escaped bees.  
God bless America  
Tom
